2<sup>nd</sup> July 2025

To Whom It May Concern,

I am writing to provide a strong recommendation for Sara Moumneh, who has worked with us as an R&D Intern from 7th April 2025 to 1st August 2025. Over the past four months, Sara has consistently demonstrated exceptional qualities that make her an outstanding intern and a future asset to any organization.

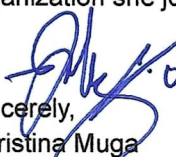

From the beginning, it was clear that Sara is an intelligent, driven, and passionate individual. She is always eager to take on new tasks and approaches every assignment with enthusiasm. Her desire to stay busy and contribute wherever possible speaks volumes about her work ethic and dedication. Whether it was assigned tasks in the lab for R&D and Quality Control or more sales and commercial roles, Sara approached everything with flexibility and professionalism, further demonstrating her versatility and ability to adapt to different aspects of the business.

What stood out the most during her time with us is Sara's technical aptitude and her eagerness to be in the laboratory. She truly enjoys hands-on work and demonstrated a natural curiosity for learning, experimenting, and creating. Her skills and contributions have added value to the projects she worked on at OPTICHEM, a sister company of REDA Chemicals.

Sara is also extremely receptive to feedback, actively listening to suggestions and implementing improvements quickly. With the right guidance, she has made significant progress, especially in her reporting skills. Her ability to learn and adapt in such a short time is a testament to her intelligence and commitment to personal and professional growth.

Sara communicates effectively with her supervisors, and she always demonstrates professionalism in her work. She has proven to be a reliable and valuable team member, and I have no doubt that she will continue to excel in any future endeavors.

I highly recommend Sara Moumneh for any future roles in R&D or related fields. Her drive, technical skills, and passion make her an outstanding candidate, and I am confident she will bring value to any organization she joins.

 02/07/2025  
Sincerely,  
Christina Muga
