

Sara Mounneh

Third year chemistry student
22 years old

Endowed with a strong sense of responsibility, I am known for my ability to work in a team, my active listening, and my effective communication. My analytic and adaptability skills allow me to easily integrate into new professional environments. I demonstrate great resilience under stress and maintain a positive attitude, even in complex situations, while remaining attentive to detail. Highly motivated and committed, I am seeking an apprenticeship within a chemical laboratory, particularly in the fields of analytical chemistry, quality control, and environmental analysis.

LANGAGES

Arabic: Native language

Spanish: A1

English: C1

German: A1+

French: C1

EDUCATION

College of Carmel Saint Joseph

Secondary school diploma

Secondary school diploma with a specialization in Physics-Chemistry and Life Sciences (2022)

Honors: "Bien" (Good)

University of Strasbourg

L1SPS - parcours chimie

2022-2023

First-year Bachelor's degree in Chemistry

Average: 14.5/20

2023-2024

Bachelor's degree in Chemistry Professions

2024-2026

COMPÉTENCES

- Knowledge of basic setups and glassware.
- Filtration, decantation, thin-layer chromatography, atmospheric and reduced pressure distillation, rotary evaporator, recrystallization, chromatographic column.
- Based on physical properties: Kofler bench (melting point), polarimetry, or qualitative characterization through colored tests and precipitates, chromatography (HPLC, GC).
- Colorimetric, pH-metric, iodometric, conductimetric, redox, and gravimetric titrations.
- UV-visible spectroscopy, IR spectroscopy, and NMR interpretation (^1H , ^{13}C).
- Viscosity, DSC, density measurement, laser granulometry.
- Maintaining a laboratory notebook, writing reports, and presenting experimental results.
- Proficiency in scientific databases and search engines (SciFinder and PubMed) for conducting bibliographic research.
- Citing bibliographic references in reports.
- Training and application in waste management, circular economy, and product life cycle.
- Ability to analyze chemical risks

Investigations on the activities of Alsachimie, Chalampé
June 2024

EXPÉRIENCE PROFESSIONNELLE

Laboratoire des Études et des Eaux
Strasbourg, France

Apprentice in analytical chemistry - 1 September 2025
until 28 August 2026

- Environmental analyses (ICP-OES, ion chromatography, TOC analyzer).
- Application of Good Laboratory Practices (GLP) and ISO 9001 quality standards.
- Metrological monitoring and management of laboratory equipment.
- Implementation of reliable analytical protocols.
- Preparation and technical support for laboratory practical sessions.
- Strong attention to detail, teamwork, and initiative

REDA Chemicals, Dubai, UAE

Internship in Sales & R&D - 7 April 2024 until 1 August 2024

- Analyze market trends and consumer needs
- Formulate and test products in compliance with quality standards
- Interpret analytical results
- Solve formulation-related challenges
- Manage projects within a team environment
- Communicate results clearly and effectively
- Apply regulatory and quality standards
- Work autonomously with rigor and strong organizational skills

Moumneh Dental Polyclinic, Lebanon

Assistant, summer job 2022-2023

- Work organization by prioritizing tasks
- Meeting expectations and adhere to deadlines.
- Adaptability to different stakeholders and situations.
- Continuous training of employees and talent development.
- Managing emergency situations calmly.
- Sterilization of dental medical equipment.
- Organization of patient files.

CENTRES D'INTÉRÊTS

Travel: Lebanon, Greece, Turkey, Bulgaria, France, Germany, Luxembourg, Syria, Jordan, Switzerland, Egypt, Italy

Pastry Making

Hiking and Nature Walks
